Tasting Notes

More than golden, Cuvée Deor shows a platinum shade. Cuvée Deor was conceived using the Martinotti method, invented right in Italy. Its persistent and gentle bubbles release intense aromas of citrus and summer fruit, with notes of lemon, green apple, and melon foremost. A sip that quenches your thirst and leaves in your mouth a long trail of juicy and crunchy memories. The beautiful season manifests itself in the glass when you pour Cuvée Deor, the ideal sparkling wine to give style to every party.

Best Food Pairings

There are many recipes that match perfectly with the charm of Cuvée Deor. Its bubbles continue to amaze you. Enjoy them with crunchy coconut prawns, pineapple and mozzarella salad, and raw prawns with lime and cilantro, to bring a touch of tropical breeze to the moment. Otherwise, relish its appeal with less summery recipes, such as salmon onigiri, savoury pie with courgette and ricotta, sage and fried mozzarella, and chicken nuggets. For a finishing delight, taste it with apple tiramisu or green tea ice cream.
